PFAS-Free Declaration

Nova Trading SA, as a responsible market leader of the distribution and processing of stainless steel, is committed to environmental protection and diligently adheres to the regulations in this regard. Recognizing that PFAS are harmful to health, persistent, and environmentally bioaccumulative chemical pollutants, we continuously refine and monitor our production processes to provide our business partners with sustainable products and services and reliable information in the ESG domain.

Based on our technological knowledge, we declare that the stainless steel products imported and manufactured by Nova Trading SA do not contain any intentionally added perfluoroalkyl substances (PFAS), such as perfluorooctanesulfonic acid (PFOS), perfluorooctanoic acid (PFOA), perfluorononanoic acid (PFNA), and perfluorohexanesulfonic acid (PFHxS).

If you have any questions or concerns, please contact our Quality and Environmental Protection Department: kj@ntsa.pl.
