Declaration of Conformity with EU Regulation 2025/40 (PPWR)

No. 1/2026, Rev. 1

in accordance with the Regulation (EU) 2025/40 of the European Parliament and of the Council of 19 December 2024 on packaging and packaging waste, amending Regulation (EU) 2019/1020 and Directive (EU) 2019/904, and repealing Directive 94/62/EC

1. Legal basis

We hereby declare that the specified packaging meets the requirements of Regulation (EU) 2025/40 on packaging and packaging waste.

2. Packaging description

The subject of the declaration is a multi-material packaging unit, which may consist of the following components:

No.	Component
1.	Solid wood transport pallet, assembled with steel nails
2.	Production paper, bleached or unbleached
3.	Corrugated cardboard spacer
4.	Polypropylene (PP) plastic spacer
5.	LLD-PE stretch film
6.	Plastic film sleeve
7.	PET plastic strapping
8.	Product/shipping label
9.	Solid cardboard edge protector
10.	Cardboard tube
11.	LDPE foam sheet
12.	Solid wood beams
13.	Adhesive tape
14.	Corrugated cardboard box
15.	Metal staples
16.	Moisture absorber

The packaging materials used are intended for transport purposes and are not designed as individual consumer packaging for the end user.

3. Compliance with the Articles

5.1. Art. 5 PPWR — Requirements for substances in packaging

The packaging meets the requirements of Art. 5 of the PPWR for substances in packaging. The packaging does not contain:

- chemical substances specified in Annex XVII to Regulation (EC) No 1907/2006 or, where applicable, restrictions and specific measures relating to materials and articles intended to come into contact with food as set out in Regulation (EC) No 1935/2004; the sum of the concentrations of lead, cadmium, mercury, and hexavalent chromium resulting from the presence of substances in packaging or components of packaging does not exceed 100 mg/kg,
- substances from the candidate list of substances of very high concern (SVHC) in a concentration exceeding 0.1% (latest update of the SVHC list as of 04.02.2026), in accordance with Regulation (EC) No 1907/2006 of the European Parliament and the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

— Article 5.5 of the PPWR, concerning per- and polyfluoroalkyl substances (PFAS), does not apply - this is not food packaging.

5.2. Art. 6 PPWR — Recyclable packaging

The packaging has been designed in accordance with recyclability principles, as per Article 6 of the PPWR. At present, the European Commission has not yet published the PPWR implementing acts regarding the methodology for assessing recyclability or the formal A–C classification system. The final rules are scheduled to be adopted by 2028 (DfR—criteria) and 2030 (assessment methodology).

5.3. Art. 7 PPWR — Minimum recycled content in plastic packaging

By 1 January 2030, the packaging will meet the requirements of Article 7 of the PPWR.

5.4. Art. 8 PPWR — Biobased feedstock in plastic packaging

By 12 February 2028, the packaging will meet the requirements of Art. 8 PPWR. By that date, the Commission shall review the state of technological development and the environmental performance of packaging made from bio-based plastics, taking into account the sustainability criteria established in Article 29 of Directive (EU) 2018/2001 of the European Parliament and of the Council.

5.5. Art. 9 PPWR — Compostable packaging

The packaging is not compostable, therefore, Article 9 of the PPWR does not apply.

5.6. Art. 10 PPWR — Packaging minimisation

The dimensions, weight, and volume of the packaging are determined solely by the product stability and safety requirements agreed with the recipient.

5.7. Art. 11 PPWR — Reusable packaging

Based on an analysis of the documentation, both single-use and reusable packaging were identified. The reusable packaging (*) meets the requirements of Article 11 of the PPWR; however, Article 11 does not apply to single-use packaging.

* Reusable packaging: transport pallet.

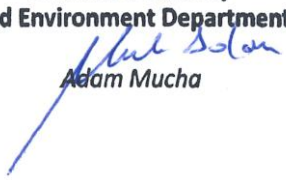

5.8. Art. 12 PPWR — Labelling of packaging

The packaging will meet the requirements of Article 12 of the PPWR. Detailed requirements are currently the subject of regulation.

4. This declaration is valid from the date of its issuance.

This declaration has been prepared based on information, statements, and technical documentation provided by packaging manufacturers and suppliers. The packaging is used solely to protect products during storage and transport.
